ABOUT HEALTHx: Your One Stop Digital Healthcare Partner

HEALTHx is an Impact & data driven fully integrated digital health venture which started its journey in March, 2021 with a vision to make the primary & essential healthcare accessible & affordable for the 170 million population of Bangladesh.

HEALTHx has been developing a digital health ecosystem connecting four 'P's – Patient, Physician, Provider (Pharmacies, Hospitals, Clinics & Diagnostics) & Payor (Health Insurer).

HEALTHx aligns with the objective of Bangladesh Govt. in achieving Universal Health Coverage (UHC) and SDG 3 goal of "Ensure healthy lives and promote well-being for all". Also, to drive the Government's target of 'Digital Bangladesh', HEALTHx enables the health service & solution more universal through digitalization of the services and health systems.

At HEALTHx, we are committed to solve your pain points, serve you with the services & solutions and eventually satisfy you with care!

WHAT WE OFFER

For Patients

HEALTHx offers one stop solution of Tele Health & Home Health (Medicine Delivery, Sample Collection, Report Delivery, Nursing, Caregiving, Physiotherapy, First Aid care, Emergency care) services where a cloud based electronic Personal Health Record (PHR) solution, 'My Health', is integrated so that the patients can store their health record & health data and provide access to the Physicians.

To reduce the excessive out of pocket (OOP) health expenditures, which is 72% as of now, we are now developing affordable health plans for the patients in partnership with the PAYORS (Insurance companies) to design.

For Physicians

For the 100,000+ PHYSICIANS of the country, HEALTHx developed a cloud based SaaS solution 'Smart Doctor' Solution which is integrated with the 'My Health' e-prescription and electronic personal health record solution (PHR) so that physicians can take health data driven clinical decision.

For Pharmacies

For the 150,000 pharmacies of the country, HEALTHx developed a cloud based SaaS solution 'Smart Pharmacy Manager' solution so that they can record their daily business transaction and can order medicine online to the pharma companies.

VISION

To be the largest Digital Healthcare platform in Bangladesh by 2025 serving highest number of daily patients & connecting highest number of Physicians & healthcare providers.

By 2025, HEALTHx aspires to serve min. 1 million patients per year, partner with min. 1,000 Hospitals & Clinics; subscribe 10,000 Physicians & 10,000 Pharmacies & generate 35 million e-prescriptions!

MISSION

To make the primary & essential healthcare accessible and affordable at home for 170 million population of Bangladesh.

VALUE PROPOSITION

Your one stop healthcare partner who provides all healthcare services & solutions from a single platform.

STRATEGY

Developing a digital healthcare ecosystem bringing the four 'P's of in a digital platform – Patients, Physicians, Providers, Payors.

How It Works

What Our Happy Customers Say

Why Us

FAQ

When will I get an answer to my query? What happens if I don't get a response?

After your booking for a consultation, you will receive a call from Doctor at your booked time. However, if you do not get any response within the stipulated time, we will refund your money back into your account.

Who are the consulting doctors?

All of the doctors are registered medical practitioners as per BMDC. Along with qualifying medical degrees & experience, and track-record of practice are taken into account before a doctor is credentialed with Healthx and is onboarded for Tele consultations.

Will the doctor be able to resolve my issue?

Our experienced doctors will give you expert advice on your problem and help you identify next steps which may include further tests, medicine recommendation or lifestyle tips. However, few cases require face-to-face examination.

Is my consultation private with my doctor?

Privacy of health data is one of the core priority at Healthx. All your medical history and online consultation with us are completely private and confidential. We are compliant with industry standards to ensure your consultations are securely stored.

Do you have a refund policy?

Yes, we have a refund policy as we prioritize your satisfaction. If for any reason you're not convinced with your online consultation, you can call us or write to us at contact@healthx.com.bd and we will review the consult with the doctor - seeking clarifications on your queries that were answered. 100% refund will be given in genuine cases.
